ACCOUNTANCY

Refreshingly Different

2020 Accountancy : The Contractors Choice

The team at 2020 Accountancy have over 15 years' experience in providing services to freelance contractors across the UK. We are Limited Company Contractor specialists and not just a generalist accounting practice. We know how you operate and will be totally clear in how we do.

As a self employed contractor or freelancer you can **keep more of your earnings** by operating as a Limited Company - typically **keeping up to 85% of your earnings.**

2020 Accountancy provide:

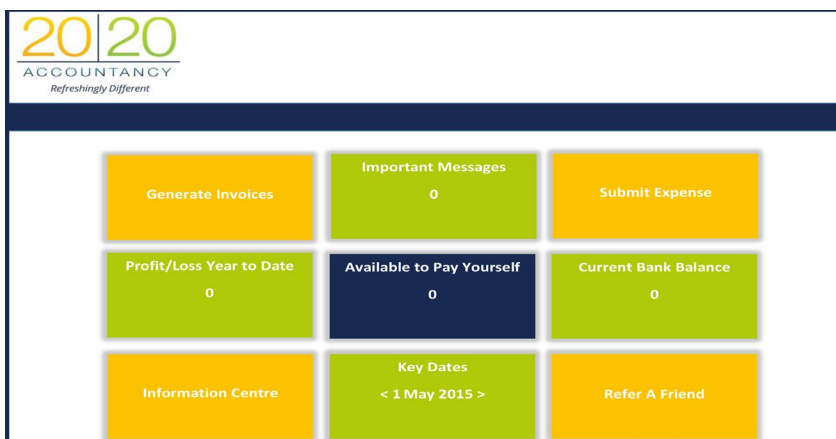

- Fast and easy set-up of your Limited Company.
- Your own qualified Personal Accountant.
- Online access 24/7- with access to expenses and timesheets.
- Competitive Fees.
- Smooth transition if you are moving from an existing service provider.

2020 Accountancy guarantees the following benefits:

No upfront costs - working with 2020 you can be assured there are no upfront costs to pay, not even your first month in advance, helping your cash flow at a busy time.

Payment holidays - If you are between contracts you can take payment holidays so that you are not paying out when you have no income.

Switch back to NWM if a new contract requires - we know every contract works differently, and sometimes you may need to go back to PAYE. Working with NWM & 2020 means you can switch back to the benefits of an umbrella company as and when you need at no extra cost; therefore you only pay fees once.

Simple to use dashboard

Online portal

As a 2020 client you are given access to your own online portal, where you can easily keep up to date with your financial situation, upload expenses, generate invoices and see exactly how much you are able to pay yourself each month.
